

Welcome to our family of Pet Vet Hospitals

We will enhance and protect the human-animal bond through excellence in veterinary medicine and surgery while providing caring, compassionate service to our patients and their owners.

We commit ourselves to the following in order to meet our mission:

We will treat all clients and patients as we would our own family members

• Client education and communication

• Recognizing the need to consider simultaneously the needs of not only our animal patients but also those of our human clients

• Providing continuing education for doctors and team members so we can “set the trends, not follow them”

• Developing and maintaining a caring and nurturing environment for employees

• Being responsible members of society who contribute to the community

We fight like cats and dogs
to protect your pets health.

OUR VETERINARY SERVICES

PHYSICAL EXAM

We believe the best approach to your pet's health care is to stop problems before they start. At Pet Vet Hospitals, we provide a nose to tail exam for all of our clients' pets.

A complete veterinary examination includes:

- Medical History • Ear & Eye Examination*
- Cardiopulmonary (Heart & Lung) Analysis*
- Temperature Reading • Dental Exam*
- Dermatological Exam • Musculoskeletal Evaluation*
- Nutritional Counseling • Parasite Prevention*
- Wellness Blood testing • Individualized Vaccination Protocols*

GENERAL AND INTERNAL MEDICINE

Eye and ear diseases, skin disorders, allergies, nutrition, preventive dentistry and oral surgery, behavior, acupuncture, cardiology, laser light therapy, homeopathy, microchipping, emergency and critical care. Internal medicine including diagnostics, treatment and monitoring of diseases of the gastrointestinal system, endocrine system, kidneys, liver, respiratory system and pancreas.

VETERINARY SURGERY

We offer a range of soft tissue surgeries which include routine spays and neuters, tumor removal, biopsies, dental surgery and foreign body removal. Orthopedic surgery such as fracture repair, ACL (cruciate) tear repair, medial patellar luxation repair, joint and bone are performed by our staff Orthopedic surgeon.

At Pet Vet Hospitals we include safety measures such as pre-anesthetic blood panel, I.V. fluids, electronic monitoring and our comfort and care package to eliminate pain and make your pet's surgical recovery "worry free" for you.

DIGITAL RADIOLOGY

Digital veterinary X-Ray equipment ensures your pet has minimal exposure to radiation, while providing our doctors with the very best diagnostic imaging available to evaluate your pet's condition and determine the best form of treatment.

Our images can be emailed to a Radiologist or Referral Specialist when required.

VETERINARY ULTRASOUND

This allows the doctors to examine your pet without invasive procedures. This pain free, non stressful procedure assists in diagnosing abdominal, cardiac, urinary and other problems your pet may be experiencing.

ON-SITE LABORATORY

Our in house laboratory features diagnostic testing performed by a Registered Veterinary Technician to provide diagnostics for our Veterinarians in a timely manner.

BREED SPECIFIC WELLNESS AND GENETIC TESTING

Breed size and genetic susceptibilities are important when considering wellness care for your pet. Pet Vet incorporates recent research and medical advances in canine genetic testing and prevalence of disease into your dog's preventive care. We treat your dog based on his unique behavioural attributes, lifestyle and genetic predisposition to disease ensuring your dog will live a longer, healthier and more enjoyable life.

OUR ADDITIONAL SERVICES

VETERINARY CARE PACKAGES

Pet Vet's unique Puppy and Kitten and Platinum Spay/Neuter Days all inclusive examination, vaccination, and spay or neuter package includes all the care your new addition to the family needs! Extras such as deworming, stool analysis, nail trims, declawing for cats, puppy socialization classes, pre-anesthetic blood panel, I.V. fluids during surgery, comfort plan to ensure a pain free recovery are all part of the value.

Our Annual Platinum Examination package is another favourite boasting our nose to tail exam, stool analysis, nail trim, full vaccinations and a voucher for a six month check up or sick pet exam

PET HOTEL SERVICES

Pet Vet locations offer various sizes of indoor boarding accommodation to suit your pet's needs while you are away. Call us anytime for a tour of the facility. Our facilities are air conditioned and heated. Our all inclusive boarding packages can include extra outdoor walks, play time, Stuffed Kong treats, bathing and more!
